

Memo

To: St. Lucie County Fire District Board of Commissioners

From: Captain Paul Langel

cc: Fire Chief Nate Spera

Date: December 4, 2017

Re: Amended St. Lucie County Fire District Fire Prevention Code: Resolution No.647-17

Due to the tri-annual adoption of the Florida Fire Prevention Code (FFPC), the Bureau is updating the District's local Fire Prevention Code. The amended Resolution incorporates the most current edition of the FFPC as adopted by the State. In addition, changes to Section 7.C.2 clarify the fire department's Plan submittal requirements. Section 20.D.4 & 6 clarify the fire department's requirements regarding hydrant clearances and hydrant marking requirements. Section 20.D.4 clarify the fire department's application procedure to obtain an access key box.

Please feel free to contact me should you have any questions or concerns.

Respectfully Submitted,

Captain Paul Langel
