“Our Family Serving Yours”

MESSAGE FROM FIRE CHIEF NATE SPERA

2022 was a year of positioning the Fire District for future expansion and growth in the numerous communities we serve. Property was secured for Fire Station 19 as well as a new Central Fire Station adjacent to the Fire District Administration building. The Fire District retained a “Construction Manager at Risk” to develop the numerous capital improvement projects the District is undertaking, such as the remodeling of the CRR division and the finance department. Future improvements will be a significant expansion of our logistics center to meet the ever-growing needs of our community.

As of this writing, impact fees have been collected to nearly cover the costs of building and equipping our planned capital improvements, and a staffing plan is being implemented to meet our personnel needs for this expansion.

In April, the District dedicated Fire Station 2 to the memory of Dr. Chi Chou Liu, who was the Fire District’s first Medical Director and served for 41 years. His nieces were present and announced a scholarship fund in his memory for paramedics at IRSC.

In May, the Fire Board of Commissioners approved a significant purchase of fire engines, an aerial apparatus, and rescue units totaling \$8 million to meet the needs of the new stations that will be under construction in the near future. Since supply chain issues have pushed the turnaround time for fire equipment beyond 24 months, it was prudent to initiate those purchases in advance.

Last year, the operations division began a new model of aerial truck response to better meet the requirements of the Insurance Service Office, which determines fire insurance rates for the county. We anticipate in May or June 2023 the benefit of those changes will be born out in an improved rating. Furthermore, the Fire District deployed its fourth, second out rescue truck at Fire Station 14 to meet the growing demands of that community.

Governor Desantis appointed Travis Leonard as the Fire Board’s Governor Appointee, and we saw St Lucie County Commissioner, Jamie Fowler, come on board in December, rounding out our seven-member board.

For the second year in a row, the Fire District was recognized as a “Best Place to Work” in St. Lucie County by the St. Lucie County Human Resources Association. The Firefighter Challenge Team was also a second year World Championship winner this past year. The team also grew a significant woman’s team that has joined in the competition. The District initiated a new fitness evaluation in the past year and will be expanding that a great deal over the course of 2023 as peer fitness instructors and an internal evaluation system are employed this summer.

2023 looks as though the Fire District will continue on its path of continuous improvement as we have a full ISO evaluation, pursue an Accreditation renewal, and meet the statutory requirements set by the Legislature to a full performance audit to be completed by July 1. As always, meeting the needs of our ever-expanding community is our top priority and we are well positioned to do so now and in the future.

OUR MISSION

It is the mission of the St. Lucie County Fire District to preserve life and property by providing safe, efficient, and professional emergency services, community risk reduction, and public education; together with community services for our residents and visitors now and into the future.

OUR VALUES

- ⇒ Safety
- ⇒ Strategic
- ⇒ Integrity
- ⇒ Transparent
- ⇒ Community-Driven
- ⇒ Professional
- ⇒ Compassionate, Comprehensive Service
- ⇒ Inclusivity
- ⇒ Pride, Passion, Purpose
- ⇒ Teamwork
- ⇒ Family

ORGANIZATIONAL BACKGROUND: St. Lucie County Florida was created in 1905 with Fort Pierce serving as the county seat. Established in 1906, the Fort Pierce Fire Department formed with the intent of lowering the rates of fire insurance in the area. As time moved forward, the department continued to grow based on need and demand within the county. In 1959, by an act of the Florida Legislature, the St. Lucie County / Fort Pierce Fire District was created. The district continued to grow and provide a broader expanse of services within its coverage area. In 1996, the organizational name change to the St. Lucie County Fire District (SLCFD) was formalized.

2022 FIRE BOARD OF COMMISSIONERS

In 2022, the Fire District welcomed Commissioner Leonard!

The St. Lucie County Fire District is an independent special district of the State of Florida and is separate from St. Lucie County, the City of Fort Pierce and the City of Port St. Lucie. The fire district is governed by elected and appointed officials who function as the policy-making body and serve as the fire board of commissioners. The fire board employs the fire chief, clerk-treasurer and the district attorney to manage the operations, finances and legal affairs of the fire district.

The fire board is comprised of seven members: two from the St. Lucie County Board of County Commissioners; two from the City Commission of the City of Fort Pierce; two from the City Council of the City of Port St. Lucie; and one member appointed by Florida's Governor.

In 2023, the Fire District welcomes Commissioner Fowler!

RECOGNITIONS

FIREFIGHTER OF THE YEAR

ADAM ZUCCARO

Adam is currently in his 26th year with the fire district. He is an officer at fire station 14 in St. Lucie West. Lt. Zuccaro was instrumental in setting up the local firefighter chapter of the Surfers for Autism. He is our 2022 Firefighter of the Year.

SUPPORT STAFF OF THE YEAR

STACEY CARTER

Stacey is currently in her 7th year with the fire district. She is the Life & Fire Safety Educator. During the pandemic, Stacey created the virtual classrooms so that children could continue learning. She is our 2022 Support Staff of the Year.

FINANCE AT A GLANCE

FY 2022 – Year End

The following charts reflect the fire district's revenue and expenditures for the 2022 fiscal year. Actual revenues do not include reserve fund balances, cash on hand, or transfers in. Actual expenditures do include transfers out. Due to prior accounting changes, ambulance fees now include a reduction in unallowable amounts charged to Medicare. They are no longer classified as an expenditure, as was the prior practice. These numbers are unaudited and subject to change during the fiscal year audit.

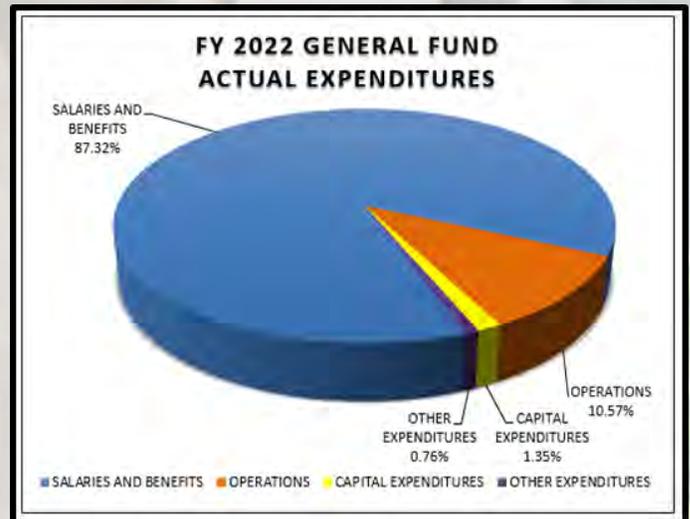

REVENUE

	<u>Adopted</u>	<u>Actual</u>	<u>% of Actual</u>
Ad Valorem	\$ 74,666,687	\$ 74,887,699	82.94%
Ambulance Fees	\$ 11,800,000	\$ 11,032,837	12.22%
Other	\$ 7,447,059	\$ 4,372,381	4.84%
Total Revenue	\$ 93,913,746	\$ 90,292,917	100.00%

EXPENDITURES

	<u>Adopted</u>	<u>Actual</u>	<u>% of Actual</u>
Salaries/Benefits	\$ 78,392,181	\$ 75,309,637	87.32%
Operations	\$ 11,735,551	\$ 9,116,113	10.57%
Capital	\$ 3,459,679	\$ 1,161,389	1.35%
Other	\$ 326,335	\$ 655,623	0.76%
Total Expenses	\$ 93,913,746	\$ 86,242,762	100.00%

*Note: These numbers are unaudited
Reduced due to ambulance fee write-offs / reductions
2021-2022 Fiscal year is October 1–September 30*

FIRE STATIONS

Fire Station 1

2400 Rhode Island Ave
Fort Pierce

- 1 Fire Engine
- 2 Rescue Trucks
- 1 Brush Truck
- 1 FTC Truck
- *FTC Field Training Captain

Manpower: 8

Calls for Service: 11,035

Constructed in 1983, fire station 1 (also known as Central) is the only two-story fire station in the county that has a slide pole for personnel to utilize for rapid response from the second floor down to the first. In addition to single family residences, there is a very heavy volume of commercial facilities in station 1's zone, including: Lawnwood Regional Medical Center, several multistory professional buildings, several dialysis clinics, Indian River State College, seven large nursing facilities, one psychiatric hospital, six high rise hotels and several smaller motels. There are also two industrial parks located to the West, four major truck stops and the St. Lucie County jail. Fire Station 1 response zone includes North and South US Highway 1 as well as approximately 58 miles of Florida's Turnpike and Interstate-95.

Fire Station 2

855 Seaway Drive
Fort Pierce

- 1 Quint
- 1 Rescue Truck
- 1 Marine Unit– Boat

Calls for Service: 2,400

Manpower: 5

Original fire station 2 was built in 1967, and in 2007 the current station was built. In 2022, the station was dedicated to the memory of Dr. Chi Chiou Liu, who was the first fire district medical director and served the community for 41 years. It was one of the first fire stations to house an Advance Life Support (ALS) ambulance. The primary response area is residential and commercial that encompasses the Port of Ft. Pierce, Intracoastal Waterway including the Inlet, Atlantic Ocean, high/mid-rise residential buildings from 2 to 21 stories, Ocean Village development, Harbour Isle development, Pelican Yacht Club and an array of small apartment complexes, hotels, motels and restaurants. The St. Lucie County Historical Museum and Aquarium, a number of high volume boat ramps and marinas are also within the response area. In addition, station 2 covers the Ft. Pierce Utility Authority Sewer Treatment Plant located on the Intracoastal and is second due to respond to the Ft. Pierce and Harbor Town Marinas as well as Florida Power & Light's (FP&L) Nuclear Power Plant on A1A.

FIRE STATIONS

Fire Station 3

480 SW Ravenswood Lane
Port St Lucie

- 1 Fire Engine
- 2 Rescue Trucks
- 1 Brush Truck
- 1 BC Truck
- *BC Battalion Chief

Calls for Service: 7,057
Manpower: 7

Original fire station 3 was built in 1964. In 2010, the current station was built just a few blocks southwest of the original site. In 2018, station 3 was dedicated to the memory of Lt Mark Morrison, who died while on duty in 2012. The primary response area of station 3 is residential with commercial corridors. Included in the response zone is the Prineville Water Treatment Facility for the City of Port St. Lucie, four elementary schools and one middle school. The area also includes five multifamily apartment complexes, the developed communities of St. James Country Club and River Place, a large assisted care facility as well as 16 smaller assisted care facilities. With the exception of two Publix Plazas, the commercial occupancies are primarily small businesses. Also located in the response area is a light to medium use industrial park and a pumping station for natural gas.

Fire Station 4

3601 Industrial 33rd Street
Fort Pierce

- 1 Engine
- 1 Rescue Truck
- 1 Brush Truck
- 1 ARFF
- 1 BC Truck
- *BC Battalion Chief

Calls for Service: 3,711
Manpower: 7

Fire station 4 was built in 2008 in partnership with the Florida Department of Transportation (FDOT). Fire Station 4's response area includes residential, commercial, industrial and the Treasure Coast International Airport. The station is located at the airport and is equipped with an Aircraft Rescue Fire Fighting (ARFF) apparatus, specifically designed to respond to aviation emergencies. The response area includes small strip malls, convenience stores, boat dealerships, storage facilities, small motels and various restaurants. There are over 100 industrial businesses in the zone making it the largest in the county, and one of the most hazardous for potential fire and hazardous material threats. There are three large boat-manufacturing plants, a large automotive parts distributor, three large freight companies and one natural gas pumping station within the response area. In addition, the Florida East Coast Railroad passes through the area two to three times a day with various hazardous products.

FIRE STATIONS

Fire Station 5

2288 Delano Road
Port St Lucie

- 1 Quint
- 1 Rescue Truck
- 1 Bariatric Truck
- 1 FTO Truck
- *FTO Field Training Officer

Calls for Service: 5,726
Manpower: 5

Original fire station 5 was built in 1975 on Port St. Lucie Blvd. The current station was built in 2020 only a few miles northeast of busy Port St Lucie Blvd. Station 5's response zone is a large established area with minimal room for growth. However, the call volume in this area has increased steadily over the years and is now amongst the busiest stations within the St. Lucie County Fire District. The response area is predominantly comprised of single family residences, with commercial occupancies along US Highway 1 and Port St. Lucie Blvd. Zone 5 has several high occupant facilities: Call centers, Sandpiper Bay Resort, a hotel, several restaurants, Wal-Mart Super Center, Sam's Club, several nursing homes and academic schools.

Fire Station 6

350 East Midway Road
Fort Pierce

- 1 Engine
- 1 Rescue Truck
- 1 Tanker
- 1 Brush Truck
- 1 Special Ops Squad
- 1 DC Truck
- *DC Division Chief

Calls for Service: 5,595
Manpower: 7

Original fire station 6 was built in 1975. In 2008, a more modern fire station was built to house more personnel and equipment to handle the increased call volume and responsibilities. The response area is a mix of residential and commercial as well as an abundance of high hazard facilities including fertilizer plants, LP gas distribution, the new Treasure Coast Energy Center, PVC manufacturing, as well as the Wal-Mart distribution center and Tropicana. The response zone also includes nursing homes, assisted living facilities, and drug rehabilitation centers. There are five academic schools in the area as well. Fire Station 6 responds to both North and South US Highway 1, the Florida's Turnpike, and Interstate 95. Station 6 is part of a dual response special operations team that responds to any, and all special operations calls in the county.

FIRE STATIONS

Fire Station 7

4900 Fort Pierce Blvd
Fort Pierce

- 1 Fire Engine
- 1 Rescue Truck
- 1 Tanker
- 1 Brush Truck

Calls for Service: 2,897

Manpower: 5

Built in 1977, station 7 was built to serve the growing northern edge of the county. Once a largely seasonal call volume, in recent years the seasonal population has become year-round residents. The response area includes residential, mixed commercial and wild land. Included are FAU Harbor Branch Oceanographic Institute, Lakewood Park Elementary school, multiple churches, commercial buildings, a railway, water exposures, and several small assisted living facilities. There are two large manufactured home communities within the station response zone. The station boundaries include the county line to the north, Old Dixie Hwy. to the east (including some portions of St. Lucie Village area); the St. Lucie County International Airport lies in the southern portion of the Zone, and Interstate I-95 to the west. The response zone also covers Interstate 95 from the county line south to approximately the 133-mile marker.

Fire Station 8

7583 South Ocean Drive
Jensen Beach

- 1 Engine
- 1 Rescue Truck
- 1 Beach Rescue Mule

Calls for Service: 915

Manpower: 5

Fire Station 8 was built in 1983. Prior to that, this area of the county was covered either by Martin County Fire Rescue or by station 2 on Seaway Drive. Within Zone 8, there are 40 residential high-rise condominiums and two large manufactured home communities (Nettles Island Resort and Holiday Out). Residents are slowly replacing their old mobile homes and manufactured homes with regularly constructed homes, but these zero lot-lined homes are usually 2 stories high, thus doubling and tripling the current fire load potential. There are also eight other smaller developments consisting of homes, townhomes and duplexes. Zone 8 has the St. Lucie County/FP&L Nuclear Power Plant within its boundaries and a water treatment plant as well as four small strip plazas, five restaurants, a few stand-alone businesses, and a golf course with country club. This zone has fourteen miles of coastline with nine public beach accesses.

FIRE STATIONS

Fire Station 9

3595 North A1A
Fort Pierce

1 Engine
1 Rescue Truck
1 Beach Rescue Mule

Calls for Service: 934
Manpower: 5

Built in 1984, station 9 is located on a barrier island with only one roadway to Fort Pierce and Indian River County. It is unique in that the railroad tracks and the drawbridge offers complete isolation from additional St. Lucie County Fire District resources. With well-established landing zones and communication with Indian River County, mutual aid can be rendered if needed. The response area includes 42 multistory structures, several townhouse developments, and a large mobile home park, along with a host of single-family dwellings, and a small number of commercial occupancies, including a sewage treatment plant. In addition to coastline and inter-coastal shoreline, there are many highly trafficked state parks, boat ramps, and marinas within the response zone. The National Navy UDT-SEAL Museum is also located in this response zone.

Fire Station 10

777 SW Dalton Circle
Port St Lucie

1 Quint
1 Engine
1 Tanker
1 Rescue Truck
1 Brush Truck

Calls for Service: 5,363
Manpower: 6

Fire Station 10 was built in 1985 and was dedicated in memory of Assistant Chief R. L. "Bunk" Barton, who served the Fire District from 1933 to 1960. The area is economically and culturally diverse. The initial response area is mostly residential with an emerging mixture of commercial and industrial properties. There are three academic schools within a three-mile radius of the station. The response area also includes several shopping plazas and light industrial business. All of these commercial/ light industrial plazas present individual characteristics, such as access issues, unknown hazardous materials, highly flammable liquids, and evacuation concerns. The response zone also includes Port St. Lucie City Hall and the City of Port St. Lucie Public Works Department consisting of vehicle and machinery storage, mechanic's shop and fuel depot. In addition, station 10 responds to Florida's Turnpike as well as provides back up for Interstate 95.

FIRE STATIONS

Fire Station 11

3501 Shinn Road
Fort Pierce

- 1 Engine
- 1 Rescue Truck
- 1 Tanker
- 1 Brush Truck
- 1 Mule

Calls for Service: 1,253
Manpower: 5

Fire station 11 was constructed in 1986 to meet the growing demand for emergency services in the western portion of St. Lucie County. This station was needed to minimize the economic impact to the agricultural areas due to brush fires. It also serves to provide emergency ambulance service to an area of the county with the longest response and transport times. The response area is mostly rural and agricultural and is the largest in the county encompassing hundreds of square miles west of Glades Cut-Off and the Florida Turnpike, from the Martin County line all the way north to the Indian River County line. Though not in their zone, Station 11 is a backup station for many incidents on I95 and the Florida Turnpike.

Fire Station 12

1850 Se Village Green Drive
Port St Lucie

- 1 Engine
- 2 Rescue Trucks
- 1 Brush Truck

Calls for Service: 7,363
Manpower: 7

Fire Station 12 was built in 1988. This area was in the growing stages and had not yet developed the population density it has today. The emergency call volume of station 12 has increased steadily throughout the years and is currently the second busiest fire station in the county. It has a very large and diverse response area that is residential, commercial and industrial. The response zone includes St. Lucie Medical Center, Port St. Lucie City Center, two St. Lucie County Schools, professional medical buildings, nursing home facilities, six retirement communities, a mix of commercial buildings, 2,500 acres of the Savannas State Preserve, approximately 5 miles of Florida East Coast (FEC) railway, Indian River Drive, as well as densely populated single-family residential areas. The station also covers a large section of North and South US Hwy 1.

FIRE STATIONS

Fire Station 13

201 SE Becker Road
Port St Lucie

1 Engine
1 Rescue Truck
1 Brush Truck

Calls for Service: 1,943
Manpower: 5

Originally housed in a prefabricated building, the current station 13 was built in 2003. It is the only station in the county with a lighted helicopter-landing pad for aero-medical transports. The response zone is comprised of 25 square miles. It includes a combination of residential dwellings, assisted living facilities, limited commercial areas and a recreational city park. The residential areas in the zone consist of several waterfront-gated developments. Directly across from the station is the 94,000 square foot Shoppes of Veranda Falls; this commercial shopping area is anchored by Publix and includes a mix of shops, restaurants, banks and services. Fire Station 13 is located next to the Florida's Turnpike Becker Road exit to allow for quick response to incidents that occur on Florida's Turnpike.

Fire Station 14

300 NW California Blvd
Port St Lucie

1 Engine
1 Ladder Truck
1 Rescue Truck
1 Bariatric Truck
1 Brush Truck
1 Mule

Calls for Service: 9,854
Manpower: 6

Fire Station 14 was built in 1999. Station 14 has one of the department's largest geographic response areas. At that time, the area was sparsely populated and had minimal commercial or industrial areas. Through the years, the area experienced an exponential growth of people, business, and enterprise. The response area extends east to Cashmere Blvd, west to Glades Cut-Off Rd, north to Midway Rd, and south to Del Rio Blvd and includes St. Lucie West, PGA, and Torino. There are numerous large business/industrial occupancies and large retail buildings and plazas. There are several medical facilities, eight (8) large apartment complexes, seven (7) churches, ten (10) academic schools, one (1) university campus, eight (8) hotels, and a professional sports stadium. The response area is divided by Interstate I-95 and is diversely interspersed with undeveloped land.

FIRE STATIONS

Fire Station 15

721 Avenue D
Fort Pierce

1 Engine
1 Rescue Truck
1 Brush Truck

Calls for Service: 7,092

Manpower: 5

Fire station 15 opened in 1997. It serves the fire district's oldest response zone that was originally established in 1924 and housed at US Hwy 1 and Avenue A, until 1983 when station 1 was built. Station 15 was dedicated to Lt. Robert Lewis. Lt Lewis was the first African American Firefighter in St. Lucie County and served the community from 1972-1997. The response area includes the Commercial Historic Downtown District, four marinas with both dry and wet storage, the cargo ship terminal, and several fruit packing warehouses. The St Lucie County Court House and the Federal Court House are also covered by this zone. Fire Station 15 covers the majority of the northwest residential section of Fort Pierce. There are many Historical residential and commercial properties along with two libraries and several academic schools from elementary through high school. Indian River State College has its northwest campus in this zone.

Fire Station 16

3910 SW Port St Lucie Blvd
Port St Lucie

1 Engine
1 Rescue Truck
1 Tanker
1 Brush Truck
1 BC Truck
*BC Battalion Chief

Calls for Service: 4,121

Fire Station 16 is one of the latest stations to be constructed in St. Lucie County. It was completed in December 2008 to keep up with the rapid growth of single-family residential dwellings in the area. Since its construction, calls for service in have increased every year. The response area is composed predominantly of single-family homes with light commercial use as well. There are numerous high occupancy buildings such as Treasure Coast High School, NAU Imagine Charter School, Windmill Point Elementary School, and Villa Seton, which is an assisted living facility. In 2009, zone 16 was expanded to cover the southernmost part of Interstate I-95 in St. Lucie County due to the new interchange at Becker Road. The C-23 canal is the southern border of the response area.

FIRE STATIONS

Fire Station 17

10240 SW Village Pkwy
Port St Lucie

- 1 Engine
- 1 Rescue Truck
- 1 Brush Truck
- 1 Special Ops Squad
- 1 FTO Truck
- *FTO Field Training Officer

Calls for Service: 5,195
Manpower: 5

Built in 2008, fire station 17 is located in the Town of Tradition. The area is a mix of residential and commercial, but also serves a large agricultural area. The response area extends north to St. Lucie West Blvd, East to California Blvd, south to St Lucie-Martin County line and West to Range Line Road. The area includes multiple residential communities, several large shopping centers, restaurants, banks, gas stations, hotels, a large commercial warehouse district, a large senior living community, the Cleveland Clinic Tradition Hospital, Florida State Veterans' Nursing Home, and Florida Center of Innovation. Also in the response area are Palm Pointe Educational Research School and Renaissance Charter School, Station 17 is part of a dual response special operations team that also responds to all special operations calls in the county.

Air Rescue

3105 Airmans Drive
Fort Pierce

- 1 Eurocopter EC135

Calls for Service: 1739
Manpower: 3

Air Rescue is stationed at the Treasure Coast International Airport. The Air Rescue Program is a partnership with the St. Lucie County Fire District and Air Methods, Inc. It was established in 2008. Under this partnership, known as St. Lucie County Air Rescue, expeditious air transport of emergent patients is provided by a highly skilled crew of three: A Pilot, a dual certified critical care flight-nurse/paramedic provided through Air Methods Corporation, along with a flight-paramedic provided through the St. Lucie County Fire District. The St. Lucie County Air Rescue Program leads the community based flight program with most flights in Region 12, which consist of Florida, Georgia, and South Carolina.

DIVISIONS & DEPARTMENTS

Communications

15305 W. Midway Road
Fort Pierce

The communications division is manned 24 hours, 7 days a week by (4) 12-hour shifts. All Tele-Communicators are required to maintain the Association of Public-Safety Communications Officials (APCO) Emergency Medical Dispatch (EMD) certification. Furthermore, all Tele-Communicators have a minimum of nine certifications and are also CPR and NIMS certified.

Calls for Service: 54,618
Manpower: 5

St. Lucie County Public Safety and Communications Division of 911, is located at the Douglas M. Anderson Emergency Operations Center. The Communications Division plays an important role in the fire district, accomplishing its mission by providing the most effective emergency communications as possible. It is the nerve center of the fire district's operations and is the first point of contact for the public. It is where calls for service are received, information is obtained and transmitted to the appropriate units or stations, and where pre-arrival instructions are given through the Emergency Medical Dispatching (EMD) process making the Telecommunicators the first of the first responders.

Administrative Complex

5160 NW Milner Drive
Port St Lucie

All administrative and support functions are housed at this location.

ST. LUCIE COUNTY FIRE DISTRICT		ADMINISTRATIVE COMPLEX	
BOARD MEMBERS		2006	EDLUND-BRITENBERG-DINKLEY ARCHITECT AND ASSOCIATES, PA
JACK KELLY	CHAIRMAN		
CHRISTOPHER COOPER	MEMBER		
DOUGLAS COWARD	MEMBER		
FRANNIE HUTCHINSON	MEMBER		
RUFUS ALEXANDER	MEMBER		
EDWARD BECHT	MEMBER		
WILLIAM TURST	MEMBER		
JAY SIZEMORE	CHIEF		
GARY PERDEW	CLERK TREASURER		
KEN CROOKS	ATTORNEY		
DEDICATED TO THE MEN AND WOMEN OF THE ST. LUCIE COUNTY FIRE DISTRICT, THEIR WIVES, PREDECESSORS AND THOSE WHO WILL FOLLOW.			

With the growth of the county and call volume increasing every year, it was obvious that support functions were outgrowing the current location adjacent to fire station 1 on Rhode Island Avenue. So in 2006, upon completion of construction, all admin and support functions were moved to Milner, including fleet maintenance and logistics– which are housed in separate buildings in the back. Inside the main building, in addition to administration, ambulance billing and all other support functions, the Community Risk Reduction division that is responsible for fire inspections and investigations throughout the county, plans review, and fire safety education.

ORGANIZATIONAL CHART

St. Lucie County Fire District

It is the mission of the St. Lucie County Fire District to preserve life and property by providing safe, efficient and professional emergency services, community risk reduction and public education; together with community services for our residents and visitors now and into the future.

Effective: 3.3.22

DEPARTMENTS & DIVISIONS

Administration

Administration provides overall direction, leadership and vision for the fire district. Divisional responsibilities include: providing administrative support in budget preparation, policies, public information, payroll, logistics, human resources, information technology and fleet maintenance.

Ambulance Billing

The ambulance billing department processes the billing for emergency ambulance transports in St. Lucie County.

- ◆ Each Billing Clerk inputs an average of 7822 calls per year
- ◆ Charges Billed Out: \$23,016,644
- ◆ Cash Collected: \$13,057,761
- ◆ Billable Transports: 39,109

Building & Grounds

Buildings & Grounds is responsible for repairs and maintenance of all fire district buildings. It is also responsible for inspection and maintenance on all self-contained breathing apparatus (SCBA) for over 400 personnel, all air conditioning systems, fuel tanks, and landscaping. They also participate in budget preparations for capital improvements at all fire stations. Below are some of the major projects completed in 2022.

- ◆ Remodeled the Community Risk Reduction Division (CRR) by removing all cubicles and replacing with 9 individual offices
- ◆ Added two new offices in the Finance Division
- ◆ Replaced all flooring and painted the following divisions: Human Resources, (HR), Finance, Ambulance Billing and CRR
- ◆ Replaced fascia gutters and down spouts at stations 9 & 11
- ◆ Replaced all office furniture in CRR, HR, Ambulance billing and Finance
- ◆ Resurfaced bay floors at stations 2, 3, 6, & 17
- ◆ Replaced Bay doors at stations 2, 3, 6, & 13
- ◆ Replaced the Kitchen at station 6
- ◆ Replaced the roof at station 8
- ◆ Installed a new gate at station 15

Community Risk Reduction

The Community Risk Reduction (CRR) division is responsible for the development and delivery of the following public safety programs: plan review, fire code enforcement, fire & explosion investigations, public education, and water supply.

Completed 6,898 fire inspections, 76 fire investigations, and 2,043 site and building plan reviews.

- ◆ Site plan review, building plan review, and permitting accumulated \$3,107,593 of revenue
- ◆ The Compliance Engine web based software generated over \$75,790 in revenue
- ◆ False alarm fees program accumulated \$144,438 in revenue
- ◆ In collaboration with water purveyors countywide, the CRR Division performed two-hydrant flow tests throughout the county for the ISO evaluation
- ◆ Participated in Ft. Pierce, Port St. Lucie and St. Lucie County development review committees to facilitate all commercial development countywide, with some of the larger projects listed below:
 - ◇ Derecktor Shipyard & Maverick Boat Expansion
 - ◇ South Florida Logistics Center (1,100,000 sq. ft. and 202,000 sq. ft. warehouses), Ft. Pierce Industrial Crossroads (1,100,000 sq. ft.), Cheney Brothers (353,000 sq. ft.)
 - ◇ Developments including Legends Point, Verano South, Volaris, The Cottages, Grande Palms at Tradition

Information Technology

The IT department provides the fire district data and voice communications services. This includes, but is not limited to, software and hardware support, installations, tower climbing, 24/7 support, administering email and phones, maintaining the microwave infrastructure which supports CAD alerting, AVL, and data links to EOC, and researching new techniques and devices.

DEPARTMENTS & DIVISIONS

Finance / Records

The Finance Department is responsible for the management of all accounting and investing of the fire district's funds, as well as maintaining and overseeing all public records for the fire district.

- ◆ Cross-trained staff for accounts payables and public records requests
- ◆ Managed a total budget of \$122,564,990 for FY 2021-2022
- ◆ The FYE 2021 Financial Statements were completed and submitted to the Auditors and State two weeks before the Florida Statute deadline of June 30th
- ◆ Received revenues for 3 grants: 1 federal grant totaling \$23,083.63, and 2 state grants totaling \$81,035
- ◆ Managed the expenditures of two state grants along with the fire district's match contribution to both grants
- ◆ Total number of records request responded to for the fiscal year: 1,965
- ◆ For Fiscal Year End 2022, Accounts Payables processed a total of 3,764 checks, 22 wires, and 40 ACH/TFRs, resulting in a total A/P balance of \$21,566,510.94

Fleet Maintenance

Fleet maintenance is responsible for spec'ing & outfitting, preventive maintenance, and repair of 131 fire district vehicles and apparatus that, as a fleet, exceed 1-million miles annually. In addition, fleet maintenance is responsible for maintaining all station generators, "jaws of life" extrication tools, and the small engines that are used in day to day operations.

- ◆ Updated box lights in all apparatus
- ◆ Fitted mounts on rescue trucks for water cans & irons
- ◆ Finalized operational readiness for new E10 and R214
- ◆ Maintained a fleet of 147 vehicles accumulating approximately 1.6 million miles
- ◆ Completed over 230 services in addition to minor and major repairs

Risk Management

The focus of risk management is to protect the fire district's assets from loss and minimize employee injuries on the job.

- ◆ Processed 99 reported worker compensation incidents valued at a total incurred cost of \$1,073,760. This includes 19 presumption claims with an incurred cost of \$189,773
- ◆ Continued to work on 34 open claims dating back to 2007 valued at a total incurred cost of \$4,595,413
- ◆ Processed 62 property and casualty incidents valued at a total incurred cost of \$326,634
- ◆ Processed 108 new vendor contracts which included obtaining all certifications of insurance

Human Resources

Human Resources is responsible for multiple HR functions in support of positive employee and labor relations. Responsibilities of HR include: performance management, benefit administration and leave management, workplace health and safety, recruitment, promotional process oversight and payroll.

- ◆ On boarded one of largest hires in the history of the Fire District
 - ◇ Processed 313 applications
 - ◇ 54 employees hired
- ◆ Managed 511 physicals and wellness visits, excluding those required of new hires
- ◆ Processed 28 employees entering the DROP
- ◆ Processed 7 employees exiting the DROP

DEPARTMENTS & DIVISIONS

Logistics

The Logistics Division is responsible for the complete procurement of the fire district; including the research, purchases, warehousing, and distributing of medical, office and janitorial supplies, uniforms and bunker gear for all active firefighters.

- ◆ Issued uniforms and gear to:
 - ◇ 43 new firefighters
 - ◇ 2 new telecommunicators
 - ◇ 1 maintenance assistant
- ◆ Facilitated and processed through to completion and delivery - 1,122 purchase orders
- ◆ Purchased gym equipment for various stations to provide all firefighters with standardized machines to meet the criteria set in motion by health and wellness initiative
- ◆ Aggressively sought ways to mitigate supply chain shortages and back ordered medication and supplies

Personal Protective Equipment (PPE) Services

- ◆ Personnel became certified in:
 - ◇ NFPA 1851 Advanced Cleaning and Inspection
 - ◇ MSA G1 SCBA Certified Technician
- ◆ Storm Sticks ordered for improved gross decon efforts
- ◆ Particulate blocking Nomex hoods ordered
- ◆ 315 sets of structural firefighting gear cleaned
 - ◇ 19 sets treated for chemical exposure
 - ◇ 30 sets treated for biohazardous and water contamination exposure
 - ◇ 8 sets treated for tar/paint exposure
- ◆ Assisted Palm Beach Fire Rescue with the development of a cancer reduction program

Operations

The operations division is responsible for emergency service delivery to the community; including emergency medical response, fire suppression, aeromedical responses, special operation response, and overall personnel and safety management for all shifts.

- ◆ Placed two new Engines into service (Engine 10 and 14)
- ◆ Placed one new Rescue truck into service (Rescue 214)
- ◆ Placed ten new battery-powered ventilation fans into service
- ◆ Placed a dedicated Aerial apparatus into service (Quint 10)
- ◆ Placed new hose nozzles into service for all Engine/Aerial attack lines
- ◆ Placed a new hybrid Engine/Special Operations apparatus into service (Squad 6)
- ◆ Replaced/upgraded all Thermal Imaging Cameras (TIC) on suppression apparatus and added one to each Rescue unit
- ◆ Revised and implemented a new accountability procedure for tracking of personnel/apparatus on emergency scenes
- ◆ Created a dedicated laundering facility for firefighter bunker gear and laundered over 500 sets of gear
- ◆ Placed an Axe, Halligan tool and pressurized water can extinguisher on each Rescue truck
- ◆ Finalized Insurance Services Office (ISO) documentation to submit for review and attempt to improve ISO rating (pending outcome in 2023)

DEPARTMENTS & DIVISIONS

Public Education

Public education is provided to the community by the fire district's Fire & Life Safety Educator (FLSE) and operates under the supervision of the community risk reduction division. The FLSE is responsible for developing and presenting fire and life safety education programs to the residents of St. Lucie County.

- ◆ Partnered with Indian River State College to provide fire and life safety information along with future career opportunities to all local high schools, reaching over 11,000 students
- ◆ Provided fire extinguisher training to the following businesses and organizations: St. Lucie County, TAMCO Industries and St. Lucie County Clerk of Court
- ◆ Public Education safety messages have reached 23,344 people using our social media platforms
- ◆ Incorporated an animatronics puppet. Dusty the Dragon has performed at 74 schools and childcare centers
- ◆ Added to the virtual classrooms with PreK-5th grade classes that contain age-appropriate e-books, videos and fire safety quizzes
- ◆ Partnered with Emergency Management and City of Port St. Lucie for the annual Hurricane Expo and provided hurricane preparedness information to over 2,500 residents

Public Information

The Public Information Office is responsible for disseminating information to the public on departmental programs and services, facilitating media relations, and coordinating community outreach. The Public Information Officer (PIO) is also the liaison for the fire district during emergency incidents between the incident commander and the media.

- ◆ Managed and assisted in scheduling more than 194 Public Education/Public Relations requests
- ◆ Worked with the Firefighter charities (Surfers for Autism, Lil Feet, Big Heart Brigade, Christmas4Kids) to assist in marketing and management of events
- ◆ Assisted the SLCFD Honor Guard with bookkeeping and Treasurer duties
- ◆ Designed and marketed 9/11 commemorative shirts to sell for the Hundred Club fundraiser
- ◆ Collaborated with Lawnwood Hospital, Play Treasure Coast Sports, and Indian River State College to implement a 9/11 stair climb

Training & Safety

The training & safety division is responsible for fire and EMS training of all St. Lucie County Fire District firefighters. This division is also directly involved with health, safety and exposure risk management for the fire district.

- ◆ Initiated a Field Training Officer (FTO) development class to educate and prepare step-up officers to the position of station/FTO officer
- ◆ Implemented departmental training on the new Sager Splint with 100% completion rate
- ◆ Conducted trainings with multiple engine companies to review the Rapid Intervention Teams (RIT) operations and to train on the new Forward Looking Infrared thermal imaging cameras with advanced features
- ◆ Implemented a 6-week orientation training for 44 new St. Lucie County Firefighters
- ◆ Scheduled and hosted a lecture by Dr. Curcio, a critical care surgeon from Lawnwood Regional Medical Center for fire district paramedics. Dr. Curcio discussed trauma that included abdominal injuries and other suspected internal injuries
- ◆ Conducted a difficult airway class that spanned over several weeks. The class was intended to reinforce skills and knowledge in the area of airway management

PROGRAMS & GROUPS

Fire Cadets

The goal of the Fire Cadet program is to provide members the opportunity to become mature young adults with good leadership and decision-making skills. Operating with a handful of dedicated advisors and volunteers, our Cadets learn first-hand how exciting and difficult the firefighter's job is by working side-by-side with actual St. Lucie County Firefighters. In 2022, 42 cadets participated. Below are a few of their accomplishments throughout the year:

- ◆ Participated at the Heartland Fire Fest Firematics in Sebring, FL placing 2nd and 3rd overall
- ◆ All became CPR certified
- ◆ Accumulated over 250 volunteer hours
- ◆ Three completed EMT school
- ◆ One completed the Fire Academy
- ◆ Cadet of the Year went to Anthony Williams
- ◆ Most Ride Time of the Year went to Tyler Richards
- ◆ Volunteer of the Year went to Harley Hutchings

Members of the Honor Guard and Pipes & Drums are some of the most highly visible representatives of the Fire District and committed to representing the district with pride, integrity and remembrance. Each year they participate in local civic occasions, such as parades and special community events. They perform at many districtwide events such as dedications, graduations, promotional and awards ceremonies. The Honor Guard plans, organizes, and performs at funerals and memorial services for district members. The team also assists other agencies with funeral and memorial services when requested. Members of the Honor Guard have participated in state and national events, such as the Florida Fallen Firefighters Memorial in Ocala and the National Fallen Firefighters Memorial in Emmitsville, MD.

2022 Events

- ◆ 2 Paramedic Graduations
- ◆ 4 Fire Academy Graduations
- ◆ 2 Retired Firefighter Funerals
- ◆ 2 SLCFD Firefighter Graduations
- ◆ Pt St Lucie St. Patrick's Day Parade
- ◆ Pt St Lucie Christmas Parade
- ◆ Fort Pierce Christmas Parade
- ◆ 4 September 11 Events
- ◆ St. Lucie County Fire District Medal Day
- ◆ Rufus Alexander Mural Unveiling
- ◆ Hosted the National Honor Guard Academy

PROGRAMS & GROUPS

Firefighter Challenge Teams

The concept of the Firefighter Challenge competition has been around since 1991 and during the mid to late 90's, the St. Lucie County Fire District had a competitive team that participated. But as time passed and those members began to retire, the team faded. Fast forward to 2017, when co-captains Matt Coney and Brian Riebe joined efforts to build a new team. In 2020, the team won it's first world title, which they have held for three (3) consecutive years- they have yet to be defeated. In 2022, the ladies team was created and they hit the ground running!

Men's Team

Captains: Matt Coney & Brian Riebe

Members: Justin Baker, Josh Burns, John Calhoun, Dante Hill, Jhonattan Lopez, Kevin Reilly, James Spagnuolo, Luke Stewart, Tre Thompson, Carlos Torres, Brendan Ward, Caden Wilson

Men's 2022 Highlights

The men placed in every single category and event they entered in 2022.

- ◆ Broke the men's relay state record twice
- ◆ Broke the men's team state record
- ◆ Matt Coney broke the men's individual 45+ state record
- ◆ Men's Relay National Champions
- ◆ Men's Team National Champions
- ◆ Brian Riebe Men's Tandem National Champion
- ◆ Men's Relay World Champions
- ◆ Men's Team World Champions
- ◆ Brian Riebe Tandem World Champion and World Record
- ◆ Matt Coney 45+ Tandem World Champion
- ◆ Individual accomplishments
- ◆ Every member is under 2 minutes
- ◆ Team Grand National Champions
- ◆ Relay Grand National Champions

Women's Team

Captains: Maria Fernandez, Sasha Hernandez, and Lindsay Mullen

Members: Amber Allen, Alexia French, Jenny Grima, Cari Haagenson, Lindsay Moynihan, Samantha Norene, Dana Oliver, Morgan Taylor, Amanda Yoder

Women's 2022 Highlights

The women participated in the following events during their debut year:

- ◆ Regional Challenge Competition in Martin County, FL
- ◆ U.S. Nationals Challenge Competition in Fort Pierce, FL
- ◆ World's Challenge Competition in Sandy, Utah

The following are firsts in the women's categories:

- ◆ Sasha Hernandez & Samantha Norene are the first SLCFD women to ever compete in individuals
- ◆ Amber Allen, Alexia French, Sasha Hernandez, & Samantha Norene are the first SLCFD females to compete as an organic team for SLCFD

SERVING THE COMMUNITY

Surfer's for Autism

St. Lucie County Firefighters participated in Surfer's for Autism for several years, but in 2021 Lt. Adam Zuccaro brought a local chapter to St. Lucie County. The daily camps are held just about every other Saturday and typically run May through August. Studies show the experience of being in the ocean can be very calming for those living with autism. More than 200 children participated last summer. Watch for postings of future camps at Facebook/slcfd.

The idea behind Lil Feet began in 2009, when firefighters purchased shoes and socks for a little girl after a call to her day-care. In the summer of 2018, Lil Feet received its 501(c)(3) status. The board of directors is a small group of dedicated, caring individuals and mostly comprised of Fire District personnel and family. The annual fundraiser is an Art Auction & Dinner endorsed and sponsored by the St. Lucie County Fire District and the St. Lucie County Firefighters Benevolent Association. To date, in conjunction with other local youth programs, thousands of children have been identified and received new shoes. For more information, please follow us at facebook.com/LilFeetofSLC.

SLC Lil Feet

Big Heart Brigade TC

Members from the St. Lucie County Fire District (SLCFD) have been feeding local families at Thanksgiving since 1992. In 2008, the Treasure Coast Big Heart Brigade (TCBHB) received its 501(c)(3). It is a 100% volunteer organization and is only possible through fundraisers and the financial assistance of local hospitals and businesses. This year, the St. Lucie County Big Heart Brigade cooked over 300 turkeys, which provided for up to 3000 hot meals to local families and the Treasure Coast Big Heart Brigade distributed more than 900 frozen turkeys between Indian River and St. Lucie. For more information, please visit bigheartbrigadetc.org

Christmas 4 Kids is a non-profit organization that was established in 2007 through the efforts of Captain David French and station 4. The crew wanted to encourage their children to share with children less fortunate, so they began collecting gently used toys and clothing to deliver on Christmas morning. Today, the organization facilitates collection of donations from multiple businesses and at all the fire stations. On Christmas morning, while most are at home opening gifts and celebrating with family, a caravan of emergency vehicles, box trucks and cars led by a fire engine carrying Santa and the Grinch makes its way through the narrow streets of the mobile home parks in Fort Pierce. The convoy is welcomed by squealing children. Last year, Christmas 4 Kids delivered more than 3000 gifts to children throughout the Christmas season. For more information, please visit slcfdchristmas4kids.com.
